Intended Use

To be used for retaining a wound dressing and provide light support and compression.

Bandage (Elastic Crepe) - This bandage is soft and conformable to allow joint movement. Good for retaining dressings, light support and compression. Comes in non-sterile and sterile. Latex free.

Bandage (Conforming Gauze) - This bandage is highly elastic, soft and conformable to allow joint movement. The lightweight construction provides good breathability

and air circulation. Good for retaining dressings, light support and compression. Non-sterile and latex free.

Bandage (Heavy Crepe) - This bandage is ideal for securing a wound dressing, supporting strains, and providing compression to alleviate swelling. Non-sterile and latex free

Warnings

Avoid applying too tight on limbs as it can constrict blood flow and lead to injury.

This product may not be right for you. Please consult a healthcare professional especially if symptoms worsen or change unexpectedly.

Non-sterile

How to use

1. Wash your hands before and after use . Gently clean the skin, and dry thoroughly.
2. Wrap the bandage in a spiral around the dressing or device, overlapping half of the bandage each time.
3. Ensure only minimal tension has been used; just enough to keep the dressing or device in place.
