ABSORBENT NON-ADHERENT Dressing

For cuts, grazes and minor burns

This ABSORBENT NON-ADHERENT DRESSING helps wounds to heal with a specially designed absorbent pad which has a soft cushioning effect to protect the wound. The pad absorbs excess wound fluid which is important for wound healing. We have added an extra layer to make it easier and less painful when changing the dressing. Keep the dressing in place with a bandage, adhesive tape or waterproof film dressing.

ALCOHOL SWABS

Keeps you clean

The primary use of our alcohol swab is to clean the skin before injections, blood tests, or minor surgical procedures. The alcohol in the pad helps to kill or reduce the number of microorganisms. The pad is individually packaged in a aluminium foil wrapper to maintain its cleanliness and effectiveness.
